Fabric Softener

Liquid Softener

Softens & Eliminates
Static Cling From Fabrics

Completely Soluble
Disperse in hot or cold water

L

bullfrogproducts.ca

Lot #

FEATURES

A high quality cationic liquid product designed to soften and eliminate static cling from all fabrics. The use of this product will shorten extraction time, increase flat work production, reduce tumbling and drying time and produce less fabric wrinkling. It is completely soluble and readily dispersed in hot or cold water to give uniform coverage to the entire load.

DIRECTIONS

Fabric Softener can be added manually or with automatic dispensing equipment to the last rinse cycle. When used in commercial applications 1 - 3 oz per 50lb of laundry is recommended.

Laundered fabrics for food plant use should be thoroughly rinsed with potable water.

For use in domestic top or front loading machines add 1oz in dispenser.
